

Masofilm®

Ready-to-use iodophor barrier film teat disinfectant

Highly effective iodophor barrier film which provides long lasting protection between milkings.

Forms a protective barrier film on the skin which will remain in place for up to 12 hours.

Lower surfactant levels & higher emollients to give excellent teat condition.

- Contains 2950 ppm available iodine & 10% glycerol & sorbitol.
- Added polymers for excellent filming properties.
- Gives teat-end barrier protection between milkings.
- Not suitable for use through any type of sprayer.
- Ready-to-use, especially suitable for situations where measurement & mixing are likely to prove inconvenient.

No dilution required.

To be used direct from the container without dilution. Replace cap after use.

POST-MILKING DIPPING:

When applying Masofilm®, squeeze the bottle until it fills the connected cup two thirds full.

Ensure the entire surface is covered with Masofilm®.

Top up with fresh solution as required.

Empty and wash out cups after milking.

Ensure skin is clean and prepared before next milking.

25l Order Code: R087KEV

Pack: 25 litre (26.54 kg)

Pallet: 32 Each

200l Order Code: R087NEV

Pack: 200 litre (212.62 kg)

Pallet: 4 Each

PRODUCT INFORMATION:

Appearance: Dark brown liquid

Odour: Faint iodine

pH - undiluted: 4.0

Shelf life: 1 year

COMPOSITION: Contains a blend of iodine, glycerol, sorbitol, nonionic surfactants & film former.
